Dear Ms. Fox:

I represent KTRK Television Inc., the license holder of KTRK-TV, Channel 13, in Houston (the "Station"). I have attached for your reference a Notice of Informal Complaint in the above-captioned matter, which was received by the Station on or about November 8, 2011. The Notice contains a complaint about lack of closed captioning during the ABC Television Network ("ABC") program "Grey's Anatomy" on October 20, 2011 at 8 pm, Central Time. The complaint also describes a continuous lack of closed captions on Station programming since "about October 9, 2011." ABC and the Station have determined that the October 20 episode of "Grey's Anatomy" contained continuous closed captions and that there has been no closed caption outage at ABC or the Station that fits the description contained in the complaint. Therefore, the Station is referring this matter to your office for resolution and response to the Commission, and I have copied Commission staff and the complaining viewer on this letter. We would appreciate receiving a copy of any communication you have with the Commission on this matter.

Sincerely
Townsend Davis

Response Type: NOIC-Notice of Informal Complaint
Date of Notice: 11/14/2011

Dear Sir/Madam:

This letter is in response to the complaint filed by Mr. Dale Reynolds regarding closed captioning not working on KTRK ABC, Channel 13. At Comcast, we strive to provide outstanding customer service and I welcome this opportunity to address Mr. Dale Reynolds concerns.

Upon receipt of the complaint from the customer, the Comcast System immediately investigated. Comcast technicians ensured that our headend equipment was working properly to pass-through closed captioning. In addition, Comcast personnel contacted KTRK's staff to address this concern and Comcast engineering worked with them to isolate the issue. The issue was found to be originating at KTRK. The Station's closed captioning encoder was found to be the problem. KTRK performed an upgrade on their encoder and this resolved the issue and allowed the closed captioning to pass without errors. Mr. Reynolds was contacted on November 16, 2011. We apologized for any inconvenience this may have caused him and he confirmed that he is receiving closed captioning on KTRK's programming.

I trust that this provides your office with the information required in this matter. Please do not hesitate to contact me directly at 713-341-8378 should you have any questions or need additional information. Comcast looks forward to receiving confirmation of closure from the Commission on file # (11-C00341116).

Sincerely,
Sheila Williams

FCC IC File Number: 11-C00341116
Response Type: NOIC-Notice of Informal Complaint
Date of Notice: 11/14/2011

Dear Sir/Madam:

Please accept this letter as an amendment to Comcast's December 2, 2011, response to an Informal Customer Complaint filed by Mr. Dale Reynolds regarding closed captioning not working on KTRK (ABC, Channel 13) on Comcast's Houston, Texas cable system.

Comcast's initial response indicated that the closed captioning issue was found to be originating with KTRK's encoder. Comcast would like to amend its response to further clarify the measures taken by KTRK and Comcast to address Mr. Reynold's complaint. Upon receipt of the complaint in November, and in order to immediately provide closed captioning on KTRK's programming, Comcast's engineers switched the content delivery method from a direct fiber feed from KTRK to Comcast's headend to an over-the-air signal feed. This allowed the closed captioning on KTRK's programming to pass without errors and without delay to Comcast's customers. We recently contacted Mr. Reynolds, and he confirmed that he has been receiving KTRK's content with closed captioning since shortly after he filed his complaint in early November.

It is correct that KTRK performed a software upgrade on its Harmonic encoder on or around November 16th. In addition, it is accurate that Comcast has not located any errors or problems with its headend equipment. In addition, the programming identified by Mr. Reynolds contained continuous closed captioning, and KTRK had no indication of any caption loss during that programming. After additional investigating, neither KTRK's engineers nor Comcast's engineers can say with certainty what caused the closed captioning problem. Nevertheless, personnel at KTRK and Comcast worked diligently and closely to ensure that closed captioning is currently present on KTRK's programming received at Comcast's headend via direct fiber feed and that closed captioning is passing through at this time.

I trust that this provides your office with the information required in this matter. Please do not hesitate to contact me directly at 215-286-8818 should you have any questions or need additional information.

Sincerely,

Catherine Fox
